

Minimum Hardware Requirements

These are the minimum hardware requirements to run Cameleon Version 4, Cameleon ITS and Cameleon Tactical. PCs equipped with more than the minimum requirements will provide better performance, particularly systems that decode IP video.

CPU	P4 3.0 GHz HT, Intel Core Duo2, MB L2 Cache, 1066 MHz FSB
Installed Memory	1 GB required 2 GB RAM recommended
Hard Drive	60 Gb
Operating System	Windows 2000 Professional, Windows XP Professional, Windows 2000 Server or Windows 2003 Server
Network Card	100 MBPS or 1 GBPS
Ports	Network port (either 100 MBPS or 1GBPS, 2 USB ports) required COM1 serial port (servers only), 6 USB ports and audio ports recommended
Expansion Slots	PCI expansion slots required for supported analog video cards. PCIe x16 slot is recommended for the main graphics card. See <i>Display Options</i> for more information Not required on server PCs
Monitor	Minimum resolution 1074 x 768
CD	CDRW or DVDRW
Floppy Drive	3-1/2" floppy drive recommended
Mouse	Scroll wheel required. Optical mouse recommended
Keyboard	104-key keyboard recommended

Display Options*

Only required on PCs that run the client software. Not required on servers.

Video Card	Required for IP video systems. Minimum of 128 Mb of video RAM required Must be multi-head Video card, if more than one VGA display is required
Video for Windows Card	Required for analog video systems with single window viewing, requires an AGP or PCI slot, depending on the card. Recommended cards include, Matrox G450eTV, Osprey 100, NVIDIA dual head with video in, or ATI Radeon with video in.
Custom Quad Video DS Card	Required for analog systems with 4 video windows, requires PCI Slot. Provides four analog video inputs. Does not provide video output; must be used in conjunction with separate video card(s).

If your system runs IP and analog video you may choose to have some PCs with a VGA card only, some PCs with a Video for Windows card and some with a Quad Input card and VGA or Video for Windows card(s).

Please contact 360 Surveillance Inc. for more information regarding display options for your particular system.
